

Last time I checked we live in America. Competition is the backbone of our economy. No improvements would be made to anything if competition is eliminated. How dare you use your office to stifle competition? You should be ashamed of yourself.

The radio broadcasters already have a commercial local area advantage. If they provided better programming people wouldn't have to the satellite alternative.

Don't be tempted to throw the NAB a bone. Your backward policies on broadcast free speech is hurting local stations. Don't try and make things right by doing something else wrong.
